Hertfordshire Boziers.

The Name of **BOZIER** can be found in Hertfordshire Records as far back as the mid 1500's, this was in **Stevenage**, from there the families appeared to move down the A1 into villages on either side. Then they moved sideways across to **Sandridge, St. Albans, Harpenden, and Wheathampstead**. After the late 1800's started to move to **Kimpton, Royston, and Luton**.

Where does the name originate, It is believed to be of French origin and one of the group of **BOZIER** researchers is specifically looking at this aspect of the **BOZIER** name.

We now have an information room on the internet, with our own web master and this is how we pass our information to each other, members are now world wide, in the U.S.A., Australia, and several in the U.K.

Our Research shows us that there are two lines of **BOZIER's**, one which I call the Berkshire **BOZIER's**, and the other which I call the Hertfordshire **BOZIER's**. At present our research has taken us back as far as 1751, and we have not managed to link the two lines of **BOZIER's**, we are still hopeful that this will happen.

Berkshire **BOZIER's** did have someone transported to **Australia** as a Convict, and that tree is now fully researched, and two brothers went to America, but that research is for another time. I have found nothing as yet of any Hertfordshire **BOZIER's** before 1900, who emmigrated.

The information which follows is not all of the tree, there are many small branches which have not been fitted into the Main tree, the number of names of **BOZIER** and Spouses etc. now stands just below the 1000.
