Some notes on Station Road and other areas (contributed by Lynton Cox March 2011)

Don't forget Hall the Baker and Simons the butcher behind the mill and where the post office hairdressers and maisonettes are was at one time occupied by the **Red Lion pub** behind which was a hut used by the youth club. When the building was first built it was occupied by **Timberland** (Yet another hardware and DIY store!).

In the sixties too, next door to Cunnington's in church street was a sweet shop and then a bicycle shop.

We shouldn't forget either Mr and Mrs Tate who had a mobile grocery van.
